A pixelated, black and white graphic of the text "I am a girl". The letters are thick and blocky, with a jagged, pixelated edge. The "I" is on the left, followed by "am", then "a", and finally "girl" on the right. The overall style is reminiscent of early digital art or video game text.

$$T_{cal} = \frac{240 * (1 + Gain_i) * F_{eff}}{B_s * (1 - 0.2 * F_{eff})}$$

$$I_{em} = (1 - F_{ref}) * I_{cab} + F_{ref} * C_{te} * M_{water} * Air_{mass}$$
