[illegible]

A pixelated, black and white graphic of the text "WOW! WOW!". The letters are thick and blocky, with a jagged, pixelated edge. The exclamation marks are also pixelated and have a small dot. The overall style is reminiscent of early digital art or video game graphics.

1990-2010

A pixelated, grayscale version of the text "openairtv" in a stylized, blocky font. The letters are composed of various shades of gray, giving it a retro, digital appearance. The font is sans-serif and lowercase. The 'o' and 'a' are particularly prominent due to their circular shapes. The 'v' at the end is formed by two distinct vertical strokes meeting at a point. The overall image has a low-resolution, dithered quality.
