Wormholes are
portals that connect
two distant regions of
space-time, allowing
travel between them.

A pixelated, grayscale image of the word "EWE" in a stylized, blocky font. The letters are composed of various shades of gray and black pixels, giving it a digital or retro aesthetic. The background is white.

A pixelated, grayscale image of the word "Google" in its characteristic font. The letters are composed of various shades of gray, giving it a retro, low-resolution appearance. The image is centered horizontally and occupies the middle portion of the page.

A pixelated, grayscale image of a T-shirt, likely a template for a design. The image shows the front view of a short-sleeved shirt with a crew neck. The shirt is rendered in a blocky, pixelated style using various shades of gray and black. The background is white. The shirt's structure, including the collar, sleeves, and body, is clearly defined by the pixelated shading.
