THE WORLD

$$V(u=0, v=0) \stackrel{\text{FT}}{\rightleftharpoons} \sum_{ij \in \text{image}} \{B_{\text{primary}}.I_{\text{source}}\}_{ij}.$$

A pixelated, black and white representation of the text "Voldemort" in a stylized, jagged font. The letters are composed of various shades of gray and black pixels, giving it a digital, low-resolution appearance. The font is reminiscent of the "Deathly Hallows" font used in the Harry Potter films. The letters are slightly irregular and have a jagged, hand-drawn quality. The background is white, and the text is centered horizontally.

$$M(\alpha, \delta) = \frac{\sum_i \frac{B_i(\alpha, \delta)}{\sigma_i^2} F_i(\alpha, \delta)}{\sum_i \frac{B_i(\alpha, \delta)^2}{\sigma_i^2}},$$

1990

WORLDWIDE

$$N(\alpha, \delta) = \frac{\sum_i \frac{B_i(\alpha, \delta)}{\sigma_i^2} N_i(\alpha, \delta)}{\sum_i \frac{B_i(\alpha, \delta)^2}{\sigma_i^2}},$$

$$\sigma(\alpha, \delta) = \frac{\sqrt{\sum_i \frac{B_i(\alpha, \delta)}{\sigma_i^2}}}{\sum_i \frac{B_i(\alpha, \delta)^2}{\sigma_i^2}} = \frac{1}{\sqrt{\sum_i \frac{B_i(\alpha, \delta)^2}{\sigma_i^2}}}$$
