Answer 1 + 1 = 2

$$A_{obs} = A_{source} * (1 + D_{prop} - D_{red})$$

$$\Delta\phi = 2\pi v\delta\Delta X = 2\pi\frac{B}{\lambda}\delta\Delta X.$$

$$\Delta X \leq \frac{0.1\lambda}{2\pi B\delta},$$

$$\text{var}(\text{it}e1) = \text{it}e1 \text{ var}(\text{it}e2) = \text{it}e2$$

A pixelated, black and white representation of the word "equal". The letters are composed of various shades of gray and black pixels, giving it a digital or retro aesthetic. The font is a simple, blocky sans-serif. The word is centered horizontally and takes up most of the width of the image.
