A row of seven pixelated, grayscale icons representing different types of text. From left to right: a wavy line, a vertical line, a horizontal line, a curved line, a cross, a vertical line, and a horizontal line. Each icon is composed of black and white pixels, giving it a low-resolution, digital appearance.

$$v_{\text{out}} = \sum_N v_{\text{in}}$$

$$x_{\text{eye_out}} = v_{\text{eye_out}}^{-1} (v_{\text{res_out}} t_{\text{out}})$$

$$u_{T,out} = \sum_N u_{T,flsw} = N \times 2 \times t_{in} \times f_{res}/T_{sys,in}^2 = 2 \times t_{out} \times f_{res}/T_{sys,in}^2$$

$$I_{\text{sys,out}} = \frac{I_{\text{sys,in}}}{\sqrt{2}}$$

$$v_{T,BSW}^{-1} = \frac{1}{2} \times v_{T,BSW}^{-1}$$
