$$N_s = \text{int}\left(\frac{x_{\max,s} - x_{\min,s}}{r_s} + 1.5\right);$$

Averaged channel intensity and weight (aligned spectra):

$$T_S(i) = \frac{w_R(i) \times T_R(i) + w_T(i) \times T_T(i)}{w_R(i) + w_T(i)} \quad (1)$$

$$w_S(i) = w_R(i) + w_T(i) \quad (2)$$

WAVELENGTHS

$$\text{pdf}_R(x) = \frac{1}{\sigma_R \sqrt{2\pi}} \exp\left(-\frac{(x - \mu_R)^2}{2\sigma_R^2}\right)$$

VERIFIED OR 2

W R E

$$w_R(i) = \frac{1}{\sigma_R(i)^2}$$

Resampled channel intensity (all weights):

$$T_{R'}(i) = \frac{\sum_{j=j_{\min}}^{j_{\max}} f_R(j) \times w_R(j) \times T_R(j)}{\sum_{j=j_{\min}}^{j_{\max}} f_R(j) \times w_R(j)} \quad (3)$$

0000000000

A pixelated, grayscale representation of the word "equal". The letters are composed of various shades of gray and black pixels, giving it a digital or retro aesthetic. The font is a simple, blocky sans-serif style. The word is centered horizontally within the image.

$$\beta = \sum_{j=j_{\min}}^{j_{\max}} f_R(j) \times w_R(j)$$

$$o_R(\omega) = \frac{f_R(\omega) \times w_R(\omega)}{\rho}$$

1900

$$T_{R'}(i) = \sum_{j=j_{\min}}^{j_{\max}} a_R(j) \times T_R(j)$$

WORLD

WIRTSCHAFTS

$$\text{var} \left(\sum_{j=j_{\min}}^{j_{\max}} \alpha_R(j) \times T_R(j) \right)$$

$$\sum_{j=j_{\min}}^{j_{\max}} \alpha_R(j)^2 \times \text{var} \left(T_R(j) \right)$$

$$\frac{1}{\beta^2} \sum_{j=j_{\min}}^{j_{\max}} f_R(j)^2 w_R(j)$$

$$\text{var}(aX + b) = a^2 \text{var}(X) + b^2$$

Resampled channel weight (weights TIME and SIGMA):

$$w_{R'}(i) = \frac{\left(\sum_{j=j_{\min}}^{j_{\max}} f_R(j) w_R(j) \right)^2}{\sum_{j=j_{\min}}^{j_{\max}} f_R(j)^2 w_R(j)} \quad (4)$$

www.wool.com

A pixelated, black and white graphic of the text "WAVELENGTH". The letters are thick and blocky, with a jagged, pixelated edge. The 'W' and 'L' are particularly prominent, with the 'L' having a long vertical stroke. The 'A' is a simple triangle. The 'V' and 'E' have a more complex, pixelated structure. The 'N' is a simple vertical stroke with a horizontal crossbar. The 'G' is a simple circle with a horizontal crossbar. The 'H' is a simple vertical stroke with a horizontal crossbar. The 'T' is a simple vertical stroke with a horizontal crossbar. The 'I' is a simple vertical stroke. The 'S' is a simple vertical stroke with a horizontal crossbar. The 'P' is a simple vertical stroke with a horizontal crossbar. The 'R' is a simple vertical stroke with a horizontal crossbar. The 'D' is a simple vertical stroke with a horizontal crossbar. The 'O' is a simple circle. The 'U' is a simple vertical stroke with a horizontal crossbar. The 'M' is a simple vertical stroke with a horizontal crossbar. The 'J' is a simple vertical stroke with a horizontal crossbar. The 'K' is a simple vertical stroke with a horizontal crossbar. The 'F' is a simple vertical stroke with a horizontal crossbar. The 'B' is a simple vertical stroke with a horizontal crossbar. The 'C' is a simple circle. The 'Q' is a simple circle with a horizontal crossbar. The 'X' is a simple vertical stroke with a horizontal crossbar. The 'Y' is a simple vertical stroke with a horizontal crossbar. The 'Z' is a simple vertical stroke with a horizontal crossbar. The 'X' is a simple vertical stroke with a horizontal crossbar. The 'Y' is a simple vertical stroke with a horizontal crossbar. The 'Z' is a simple vertical stroke with a horizontal crossbar.

A pixelated, black and white graphic of the text "WOW! WOW!". The letters are thick and blocky, with a jagged, pixelated edge. The exclamation marks are also pixelated and have a small dot. The overall style is reminiscent of early digital art or video game graphics.

Resampled channel weight (weight EQUAL):

$$w_{R'}(i) = \frac{\sum_{j=j_{\min}}^{j_{\max}} f_R(j) w_R(j)}{\sum_{j=j_{\min}}^{j_{\max}} f_R(j)} \quad (5)$$

WORLD

Averaged channel intensity and weight (non-aligned spectra):

$$T_S(i) = \frac{w_{R'}(i) \times T_{R'}(i) + w_{T'}(i) \times T_{T'}(i)}{w_{R'}(i) + w_{T'}(i)} \quad (6)$$

$$w_S(i) = w_{R'}(i) + w_{T'}(i) \quad (7)$$

2017

1992-2016

A series of 12 pixelated, black and white icons arranged horizontally. From left to right, the icons are: a cross, an 'X' shape, a vertical bar, a right-pointing arrow, a vertical bar, a diagonal line, a T-shape, a U-shape, a Z-shape, a wavy line, a square, and a circle. The icons are rendered in a low-resolution, pixelated style using shades of gray and black on a white background.

$$\frac{t_{S_{\text{out}}} \times |r_{S_{\text{out}}}|}{T_{\text{sys}, S_{\text{out}}}^2} = \frac{t_{S_{\text{in}}} \times |r_{S_{\text{in}}}|}{T_{\text{sys}, S_{\text{in}}}^2} + \frac{t_{\text{obs}} \times |r_{\text{obs}}|}{T_{\text{sys}, \text{obs}}^2}$$

1990s

A pixelated, grayscale version of the Google logo. The letters are composed of a grid of black and white pixels, giving it a retro, low-resolution appearance. The logo is centered horizontally and takes up most of the width of the image.

valentines

$f(\text{chad}) = f(\text{rees}) \times f(\text{chad}) = f(\text{chad}) + f(\text{oi})$

various frequencies of banding

A pixelated, grayscale image of the text "The Great Wall of China" in a stylized, blocky font. The characters are composed of various shades of gray and black pixels, giving it a digital or retro aesthetic. The text is arranged in a single line, with the words "The", "Great", "Wall", and "of" on the left, and "China" on the right. The overall style is reminiscent of early computer graphics or digital art.
