A row of seven pixelated, grayscale icons representing different types of text. From left to right: a wavy line, a stylized capital 'P', a horizontal line, a stylized number '2', a stylized letter 'X', a stylized letter 'V', and a stylized capital 'I'. Each icon is composed of black and gray pixels on a white background.

$$v_{\text{out}} = \sum_N v_{\text{in}}$$

$$x_{\text{eye_out}} = v_1 (v_{\text{out}}, f_{\text{res}}, v_{\text{out}}, t_{\text{out}})$$

$$u_{T,out} = \sum_N u_{T,flsw} = N \times 2 \times t_{in} \times f_{res}/T_{sys,in}^2 = 2 \times t_{out} \times f_{res}/T_{sys,in}^2$$

$$I_{\text{sys,out}} = \frac{I_{\text{sys,in}}}{\sqrt{2}}$$

$$v_{T,BSW}^{-1} = \frac{1}{2} \times v_{T}^{-1}$$
